Building global academic partnerships and research collaborations

Advocates for **critical thinking, innovation & leadership education**

Inspires students to combine **academic excellence with ethical character**

Prof. Dr. Mubbsher Munawar Khan

Rector

Rector's Message

The period from October to February has been truly monumental for Green International University, serving as a powerful testament to our academic vitality and relentless pursuit of excellence. A crowning achievement was our Historic First Convocation, a landmark event that mirrored our maturity as an institution and our pledge to graduate ethical, industry-ready professionals. This momentum was further amplified by our Global Intellectual Leadership, as hosting the 1st International Conference on SDGs positioned GIU at the forefront of global discourse, proving that our research contributions extend far beyond traditional classrooms.

Our drive for global integration has reached new horizons through International Linkages, specifically our formalized MoUs with Clinical Biochemistry at Manchester Metropolitan University (UK) and Rennes School of Business, France. These alliances are designed to foster cross-border collaboration and knowledge sharing, ensuring our students gain exposure to world-class standards. Parallel to this is our deep-seated Community Engagement, where students give back through medical camps and literacy programs, cultivating a spirit of empathy. This culture of excellence also shone in the competitive arena, as our students displayed remarkable prowess at the APSUP Olympiads'26 a vibrant stage that highlighted their athletic skill, strategic teamwork, and resilient spirit.

We continue to nurture an ecosystem of innovation, particularly through the high energy of Entrepreneurial Week. To remain at the cutting edge of technology, we introduced new IT Management programs and hosted a significant Digital Innovation and Creativity Seminar. This showcase spotlighted our students' technical proficiency and original thinking in AI and modern engineering, fostering a "digital-first" perspective. These academic advancements are anchored by our Workshop on Professional Ethics, an essential initiative that reinforces GIU's mission to produce morally grounded graduates who lead with integrity.

At the core of our institutional progress is a profound focus on the human element. Through my personal initiative, the "Journey of Wellbeing," and dedicated programs for Psychological Well-being, we have established a nurturing environment that treasures mental health. Our commitment to social advocacy remains equally strong, from raising awareness on Pink Ribbon Day to honoring our national heritage through Kashmir Day. These observances solidify the University's steadfast commitment to justice, peace, and solidarity with the Kashmiri people.

In a fast-evolving educational world, GIU is not merely expanding; we are refining our very character. By synthesizing research, industry ties, and a passion for innovation, we are shaping a university that is courageous, forward-thinking, and deeply invested in the prosperity of Pakistan.

Together, we continue to build a future defined by excellence, integrity, and impact.

ENTREPRENEURSHIP PROTOTYPE EVALUATION 2026: FROM IDEAS TO IMPACT

The Entrepreneurship Prototype Evaluation 2026 at Green International University was a dynamic two-day celebration of innovation, creativity, and entrepreneurial excellence, proudly organized by the Green Business School in collaboration with the Innovation & Incubation Hub. The event served as a powerful platform for showcasing how bold ideas, when nurtured through guidance and academic rigor, can be transformed into practical, market-ready prototypes. It reflected the immense talent, commitment, and inventive spirit of GIU students, reinforcing the university's vision of fostering innovation-driven leadership.

On the first day, students presented a diverse range of cutting-edge solutions, spanning areas such as sustainable technologies, digital innovations, and forward-thinking service models. Each prototype demonstrated strong clarity of concept, technical feasibility, and a clear understanding of entrepreneurial principles. The evaluation process was further enriched by the presence of esteemed industry experts, mentors, and professionals, whose valuable insights provided students with real-world perspectives on innovation,

market demand, product validation, and business scalability. Their feedback enabled students to critically analyze their ideas and align them with practical industry needs.

Adding further inspiration to the event, Rector Prof. Dr. Mubbsher Munawar Khan personally visited numerous stalls, reviewed the student prototypes in detail, and interacted directly with the young innovators. His words of encouragement, along with constructive and forward-looking feedback, motivated students to refine their concepts, enhance their business models, and think beyond traditional classroom learning. His engagement underscored GIU's leadership commitment to student-centered innovation and entrepreneurial growth.

The second day marked a significant progression as students returned with refined prototypes and more confident, well-structured pitches, clearly reflecting the impact of mentorship and expert guidance received during the first phase. Participants demonstrated improved articulation of value propositions,

scalability strategies, and commercialization pathways. Once again, Rector Prof. Dr. Mubbsher Munawar Khan honored the event with his presence, recognizing distinguished guests and mentors with commemorative shields while inspiring students through his visionary leadership and emphasis on innovation-led economic growth.

Throughout the day, students actively engaged in thought-provoking discussions on product scalability, commercialization strategies, and real-world implementation. These interactions transformed abstract ideas into viable entrepreneurial ventures with tangible social and economic impact. The atmosphere was marked by collaboration, critical

thinking, and a shared commitment to turning innovation into action. Overall, the Entrepreneurship Prototype Evaluation 2026 not only celebrated the creativity and entrepreneurial mindset of GIU students but also reaffirmed Green International University's unwavering commitment to nurturing future leaders, strengthening industry-relevant skills, and cultivating a robust culture of research, innovation, and enterprise. As students move forward from ideas to impact, this event stands as a testament to the promising ventures emerging from GIU—ventures poised to make a meaningful mark in the real world. The journey has only just begun, and the future of innovation at GIU shines brighter than ever.

FREE MEDICAL & DIAGNOSTIC CAMP: ADVANCING COMMUNITY HEALTH & WELLNESS

Green International University, under the Office of Student Affairs, successfully organized a Free Medical & Diagnostic Camp, providing essential healthcare services to a large number of local community members. This initiative reflects the University's commitment not only to academic excellence but also to social responsibility and public well-being.

The camp was inaugurated by Rector Prof. Dr. Mubbsher Munawar Khan, accompanied by Dr. Zahida Maqbool, Executive Director Operations / Controller of Examinations, and Dr. Sajid Hameed, who collectively commended this significant community welfare initiative, emphasizing that a healthy society is the foundation of a strong and resilient nation.

The camp offered a comprehensive range of free medical services, including:

- General medical check-ups
- Dental and eye examinations
- Blood pressure and blood sugar testing
- Nutrition counseling
- Women's health and awareness desk
- Comprehensive examinations by expert general physicians

This initiative highlights GIU's vision of integrating education with meaningful social impact, demonstrating that the University actively

promotes public health while building strong community engagement. Beyond immediate healthcare benefits, such programs strengthen trust and collaboration between the University and the local community, fostering a culture of service, empathy, and social responsibility.

Green International University continues to champion initiatives that improve community health, raise awareness, and provide access to essential medical care, reflecting its core values of holistic development, social contribution, and institutional leadership in public welfare.

APSUP OLYMPIAD'26: A CELEBRATION OF LEADERSHIP, EXCELLENCE, & NATIONAL PRIDE

On 14th February 2026, Green International University proudly participated in the prestigious APSUP Olympiad'26 at Fortress Stadium, marking a remarkable milestone in the University's ongoing journey of national recognition, student empowerment, and holistic development. The Olympiad, renowned for bringing together leading universities from across Pakistan, provided a dynamic platform for students to demonstrate athletic skill, strategic teamwork, leadership potential, and the indomitable spirit of youth.

Rector Prof. Dr. Mubbsher Munawar Khan represented GIU with distinction, engaging directly with leaders, educators, and students from top universities nationwide, showcasing GIU's active role in fostering collaboration, inter-university partnerships, and student development beyond the classroom. The presence of Dr. Muhammad Hamza Amin, Deputy Chairman Board of Governors, as Guest of Honor, added prestige and gravitas to the event while reinforcing GIU's commitment to national-level engagement, academic leadership, and youth empowerment.

The Olympiad witnessed intense competition, spirited camaraderie, and exceptional display of talent from GIU's students, who represented the University with confidence, discipline, and teamwork. Participation in sports, leadership challenges, and collaborative activities reflected the University's holistic approach to student growth, emphasizing that academic excellence is most impactful when coupled with ethical leadership, resilience, and proactive societal engagement.

Green International University's involvement in APSUP Olympiad'26 highlights its dedication to creating well-rounded graduates who are not only academically competent but also socially responsible, nationally aware, and capable of leading in diverse contexts. By encouraging students to step onto national platforms, embrace competition, and interact with peers from across the country, GIU ensures that its

graduates develop confidence, critical thinking, and a sense of civic responsibility. This remarkable participation serves as a testament to GIU's vision of excellence, leadership, and impact, demonstrating that the University is committed to nurturing future leaders who excel academically, lead responsibly, and contribute meaningfully to society. The Olympiad experience will inspire lasting memories, personal growth, and professional readiness, reinforcing GIU's standing as a progressive, research-driven, and nationally respected institution.

Green International University continues to empower students, foster unity, and promote leadership through national and international engagement, setting a benchmark for holistic education, institutional pride, and societal contribution.

WHITE COAT CEREMONY 2026: WELCOMING FUTURE HEALTHCARE LEADERS AT ABU UMARA MEDICAL & DENTAL COLLEGE

Abu Umara Medical & Dental College proudly celebrated the White Coat Ceremony 2026, a momentous milestone symbolizing responsibility, compassion, and dedication to the noble field of medicine. This significant tradition formally welcomed the 1st Year MBBS students into the medical profession, marking the beginning of their journey as ethically grounded, empathetic, and competent future doctors. During the ceremony, students proudly donned their white coats, embracing the promise to uphold the highest standards of medical ethics, patient care, and professional excellence. This event not only signifies a rite of passage into medicine, but also embodies the values of trust, service, and lifelong learning that define the medical profession.

The ceremony highlighted GIU's commitment to nurturing future healthcare leaders who are not only clinically skilled but also socially responsible and compassionate. By reinforcing the importance of ethics, empathy, and professionalism from the very first day, the White Coat Ceremony inspires students to approach their medical education with dedication, integrity, and a profound sense of purpose.

As these future doctors step forward into their academic and clinical journey, the institution celebrates their promise to contribute meaningfully to society, elevate healthcare standards, and embody the values of excellence and humanity. The White Coat Ceremony 2026 stands as a testament to GIU's vision of producing ethical, capable, and committed healthcare professionals, ready to meet the challenges of the medical world with confidence, care, and competence.

Rector's Meet-Up: Connecting Voices & Fostering Student Engagement at GIU

Green International University proudly hosted a meaningful and inclusive session of the Rector's Meet-Up in the Law Room—an innovative and student-centered platform designed to enhance understanding, promote transparency, and strengthen meaningful dialogue between University leadership and the student body. This initiative reflects GIU's progressive approach toward participatory governance, where students are not only learners but active stakeholders in the institution's development.

Led by Rector Prof. Dr. Mubbsher Munawar Khan, the interactive session focused on clarifying key institutional processes, academic pathways, quality assurance mechanisms, and the strategic vision guiding the University's future. The Rector shared valuable insights into leadership responsibilities, institutional growth plans, and the collective role of students and faculty in shaping a dynamic academic environment. His open and approachable engagement encouraged students to better understand how policies are formed and how decisions impact their academic journey.

The meet-up created a safe, respectful, and welcoming environment where students felt empowered to openly share their concerns, present suggestions, and discuss ideas for improvement. The session was marked by constructive dialogue, thoughtful questions, and meaningful exchanges that fostered mutual understanding and collaboration. Students appreciated the opportunity to directly interact with the University's top leadership, while the administration gained deeper insight into student perspectives, expectations, and aspirations.

Beyond open dialogue, the initiative served as an essential bridge between students and management—helping to reduce communication gaps, build trust, and strengthen institutional cohesion. By listening attentively to student feedback and addressing queries transparently, the Rector reinforced GIU's culture of openness, shared responsibility, and proactive engagement. The session highlighted the importance of collective problem-solving and demonstrated that sustainable progress is achieved when leadership remains accessible and responsive.

This impactful interaction reflects GIU's strong commitment to student-focused leadership, continuous institutional improvement, and holistic development. By ensuring that every voice is heard and valued, the Rector's Meet-Up promotes an environment where respect, empathy, and collaboration drive positive change. It underscores the University's belief that leadership is not only about direction but also about dialogue, understanding, and partnership.

Through such forward-thinking initiatives, Green International University continues to nurture a campus culture where understanding replaces distance, communication strengthens unity, and collaboration fuels progress. The Rector's Meet-Up stands as a testament to GIU's dedication to fostering confidence, engagement, and a shared vision—proving that meaningful change begins when leadership listens, dialogue thrives, and students feel genuinely connected to their academic community.

GIU Strengthens Global Academic Presence at ICASE-2025

A distinguished delegation from Green International University (GIU) actively participated in the 3rd International Conference on Advanced STEAM Education (ICASE-2025), hosted by The University of Faisalabad. This significant academic engagement reflects GIU's unwavering commitment to global collaboration, educational innovation, and thought leadership in higher education. The conference brought together leading educators, researchers, policymakers, academic leaders, and innovators from around the world, creating a dynamic platform to examine the rapidly evolving landscape of Artificial Intelligence, emerging technologies, arts integration, engineering advancements, and transformative educational models.

Centered on the theme of global innovation, interdisciplinary integration, and sustainable educational futures, ICASE-2025 featured an extensive program comprising keynote addresses by internationally renowned scholars, expert-led panel discussions, research paper presentations, and strategic networking sessions

aimed at fostering cross-border academic partnerships. The conference highlighted the accelerating convergence of STEAM disciplines and emphasized the need for holistic, research-driven, and technology-enabled learning frameworks that prepare students for complex global challenges.

Throughout the conference, participants explored the transformative potential of AI in education, the integration of creative arts within scientific inquiry, advancements in engineering and applied sciences, and innovative pedagogical strategies for modern classrooms. These discussions underscored the importance of interdisciplinary collaboration, ethical innovation, and sustainable academic development in shaping the next generation of scholars, researchers, and industry leaders. The exchange of ideas reinforced the global consensus that future-ready education must combine technical expertise with creativity, critical thinking, and social responsibility.

Green International University was proudly represented by its esteemed leadership and academic heads:

- Chairman Board of Governors, Muhammad Haider Amin
- Deputy Chairman Board of Governors, Dr. Muhammad Hamza Amin
- Rector, Prof. Dr. Mubbsher Munawar Khan
- Executive Director Operations / Controller Examination, Dr. Zahida Maqbool
- Heads of Departments, Green International University

The presence of GIU's senior leadership at this international forum highlights the University's strategic vision to strengthen academic excellence through global engagement. Their active participation in discussions, networking sessions, and collaborative dialogues reflects GIU's dedication to expanding institutional partnerships, enhancing research capacity, and aligning its academic programs with international benchmarks. By engaging in high-level academic discourse and knowledge exchange, GIU

continues to broaden its global footprint while benchmarking best practices in STEAM education. Participation in such prestigious conferences allows the University to remain at the forefront of emerging educational trends, integrate innovative methodologies into its curricula, and foster a culture of research, creativity, and continuous improvement within its academic community. Events like ICASE-2025 significantly advance Green International University's vision of becoming a progressive, research-driven, and globally connected institution. Through sustained international collaboration and forward-thinking leadership, GIU demonstrates its commitment to producing innovative, ethical, and future-ready graduates equipped to contribute meaningfully to society. By strengthening its ties with the global STEAM community, GIU reaffirms its mission to integrate knowledge, innovation, and societal impact—ensuring that higher education remains a catalyst for sustainable development and transformative change.

Workshop on Professional Ethics: Fostering Integrity & Professional Excellence at GIU

The Department of Pharmacy, in collaboration with the Capacity Enhancement Cell (CEC) at Green International University (GIU), successfully organized a comprehensive and thought-provoking workshop on "Professional Ethics." This impactful initiative reflects GIU's unwavering commitment to nurturing ethically grounded, socially responsible, and professionally competent graduates who are prepared to uphold the highest standards of integrity in their respective fields. The workshop served as a meaningful academic platform designed to deepen students' understanding of ethical responsibility, moral reasoning, and professional accountability within the healthcare and pharmaceutical sectors.

In an era where healthcare systems are rapidly evolving and professional challenges are becoming increasingly complex, the importance of ethical awareness cannot be overstated. Recognizing this, the workshop was structured to provide participants with both theoretical foundations and practical insights into ethical decision-making. The session created an interactive learning environment where students were encouraged to reflect on real-world dilemmas, discuss case studies, and explore the broader implications of ethical conduct in professional practice.

The session was led by Mr. Shoaib Hakeem, Chief Operating Officer at Dr. Masood Homoeopathic Pharmaceuticals (Pvt.) Ltd., whose extensive industry experience added exceptional value to the discussion. Drawing from his professional journey, Mr. Hakeem highlighted the critical importance of integrity, transparency, and accountability in pharmaceutical operations and healthcare delivery. He emphasized that ethical conduct is not merely a regulatory requirement but a foundational principle that builds credibility, public trust, and long-term professional success.

Through practical examples and industry-based scenarios, participants gained exposure to ethical challenges commonly encountered in pharmaceutical manufacturing, quality control, patient interactions, marketing practices, and regulatory compliance. The session also addressed the significance of maintaining professional boundaries, adhering to legal and institutional guidelines, and cultivating a culture of honesty and respect within organizational settings. Students were provided with actionable strategies to navigate ethical conflicts effectively while safeguarding professional standards and patient welfare. A key highlight of the workshop was its interactive format, which encouraged open dialogue and critical thinking. Students actively engaged in discussions, posed

insightful questions, and shared perspectives on ethical complexities within healthcare systems. This participatory approach not only enhanced conceptual clarity but also strengthened students' confidence in applying ethical principles in real-life professional environments.

Beyond reinforcing the importance of high ethical standards in the pharmaceutical field, the workshop aligned seamlessly with GIU's broader mission of integrating academic excellence with character development and professional ethics. It underscored the University's dedication to producing graduates who are not only academically proficient but also morally conscious and socially responsible leaders.

By bridging the gap between classroom learning and industry realities, the initiative contributed to holistic student development and capacity building. Furthermore, the collaboration between the Department of Pharmacy and the Capacity Enhancement Cell reflects GIU's strategic emphasis on continuous professional development and experiential learning opportunities. Such initiatives

play a pivotal role in equipping students with the ethical awareness, leadership qualities, and decision-making skills necessary to thrive in competitive and highly regulated professional environments.

Green International University extends its sincere appreciation to Mr. Shoaib Hakeem for his insightful presentation, mentorship, and valuable contribution to the academic community. The University also commends the enthusiastic participation of students and faculty members whose active engagement made the workshop both impactful and memorable.

This successful workshop stands as a testament to GIU's commitment to promoting ethical awareness, professional competence, and lifelong learning. By continuously organizing meaningful academic engagements, Green International University ensures that its graduates emerge not only as skilled professionals but also as principled individuals dedicated to serving society with integrity, responsibility, and excellence.

GIU Showcases Commitment to Academic Excellence at Hailey Research Week 2025

Green International University proudly highlighted its commitment to academic excellence and ethical leadership through participation in Hailey Research Week 2025, hosted by Hailey College of Commerce, University of the Punjab. Rector Prof. Dr. Mubbsher Munawar Khan was invited as Guest of Honor and Keynote Speaker, representing GIU's vision of integrating knowledge, research, and societal responsibility in higher education.

The distinguished academic forum brought together leading scholars, researchers, and professionals, facilitating rigorous discussions on emerging paradigms in responsible business, ethical enterprise, and research-driven education. In his keynote address, Prof. Dr. Mubbsher Munawar Khan emphasized the pivotal role of universities as centers of knowledge creation, leadership development, and ethical stewardship.

He highlighted critical insights, including:

- Ethics is no longer optional—it is a strategic imperative.
- Enterprise performance must be measured not only by profits but by the services it delivers to society.
- Ethics fuel trust; trust builds brands, loyalty, and sustainable growth.

- Prioritizing societal well-being ensures profits naturally follow.
 - Business schools must nurture not only leaders but ethical, socially responsible decision-makers.
 - Universities must connect classroom learning to real societal needs, bridging theory with impact.
- These reflections underscored GIU's commitment to fostering graduates who are purpose-driven, socially conscious, and ethically grounded, reinforcing the University's mission to contribute meaningfully to Pakistan's higher education and societal progress. Through such scholarly exchanges, GIU continues to expand academic networks, foster intellectual dialogue, and strengthen its role as a hub for research, innovation, and responsible leadership. The participation in Hailey Research Week exemplifies Green International University's vision of where knowledge meets purpose, highlighting its dedication to transforming education into a force for ethical leadership and societal impact.

Directorate of Legal Education, Pakistan Bar Council Delegation Visits GIU: Strengthening Legal Education and Professional Collaboration

Green International University had the distinct Honor of hosting a delegation from the Directorate of Legal Education, Pakistan Bar Council, led by Barrister Usama Malik, Director, along with Judge (R) Ashtar Abbas, Head of the Department of Law, and Prof. Dr. Sami Ur Rahman, Dean of the Faculty of Law (TUF) & Member, Madina Foundation. The distinguished guests were warmly received by Rector Prof. Dr. Mubbsher Munawar Khan, Dr. Zahida Maqbool, Executive Director (Operations) / Controller of Examinations, and Muhammad Afzal, Executive Director, Academic & Institutional Performance, reflecting the University's commitment to fostering meaningful engagement, academic excellence, and strategic partnerships.

The delegation visit centered on strengthening linkages between academia and the legal profession, ensuring that GIU's law programs are aligned with contemporary professional standards and equipped to meet the evolving needs of the legal sector. Discussions highlighted opportunities for academic collaboration, curriculum enhancement, research partnerships, and joint initiatives aimed at empowering future legal professionals with knowledge, practical skills, and ethical grounding.

Through this engagement, GIU reinforced its mission to nurture competent, socially responsible, and industry-ready graduates, emphasizing the integration of theory, practice, and professional standards in legal education. The delegation's insights and guidance provided valuable direction for the University to further elevate the quality of its law programs, promote institutional growth, and strengthen ties with the legal community.

The visit underscored GIU's role as a leader in higher education, committed to fostering collaboration, academic rigor, and professional excellence, while continuing to provide students with opportunities to engage with distinguished professionals and experts in their respective fields.

Green International University extends sincere appreciation to Barrister Usama Malik, Judge (R) Ashtar Abbas, Prof. Dr. Sami Ur Rahman, and all dignitaries for their valuable time, guidance, and engagement, reinforcing the University's dedication to advancing legal education, cultivating future leaders, and shaping a progressive, research-driven academic environment.

Standing in Solidarity: Kashmir Day 2026 – Reflection, Commitment, & Awareness

Green International University proudly hosted a powerful session in observance of Kashmir Day on February 5th, reinforcing the University's unwavering commitment to justice, peace, and solidarity with the people of Kashmir. The event provided a vital platform for reflection, dialogue, and awareness, allowing the campus community to engage deeply with the issues affecting Kashmir and to reaffirm their collective responsibility toward human rights, resilience, and social justice. The session was graced by distinguished guests Ms. Rabbia Bajwa and Mr. Usman Shahid, whose insights, experiences, and expert perspectives enriched the discussions, emphasizing the spirit of resilience, courage, and unwavering determination that defines the Kashmiri community. Their contributions not only highlighted the historical and socio-political context but also inspired students and faculty to translate awareness into meaningful action and advocacy. Throughout the event, participants engaged in thoughtful discussions, knowledge sharing, and reflective dialogue, exploring themes of justice, solidarity, regional challenges, and global responsibility. The gathering emphasized that standing for human dignity and supporting marginalized communities is not

just an act of empathy but a duty of informed, socially conscious citizens. The Office of Student Affairs (OSA) ensured the seamless organization, inclusive participation, and impactful execution of the session, creating an environment where students could voice their thoughts, ask questions, and engage with experts in meaningful ways. The University's commitment to such initiatives underscores its mission to nurture socially responsible, ethically driven, and empathetic future leaders who are conscious of both local and global issues. By hosting this session, GIU strengthened its role as a convener of awareness, dialogue, and civic engagement, demonstrating that education extends beyond academics to shaping values, leadership, and societal responsibility. The event served as a reminder that reflection must lead to action, solidarity must be lived, and knowledge must be applied for the betterment of society. GIU extends deep appreciation to our esteemed guests, organizers, and participants, whose contributions ensured the session's success, impact, and resonance across the campus community. Through such initiatives, the University continues to champion the values of justice, resilience, and empathy, inspiring its students to stand united in support of causes that matter, both locally and globally.

Pink Ribbon Day 2025: Knowledge, Awareness, & Empowerment

Green International University proudly hosted Pink Ribbon Day 2025, a significant initiative dedicated to raising awareness about breast cancer, promoting early detection, and advancing women's health and well-being. The event underscored GIU's commitment to community engagement, health education, and life-saving initiatives, reflecting the University's broader vision of integrating knowledge with societal impact.

The occasion brought together leading medical experts and distinguished professionals to share their insights, experiences, and practical guidance with students, faculty, and the wider community. Dr. Muhammad Awais from Shaukat Khanum Hospital, Dr. Danial Aziz, Surgical Oncologist, Dr. Maryam Abid, Specialist in Medical Oncology & Palliative Care, and Dr. Bismah Bilal, Expert in Women's Health & Wellness, delivered engaging and informative sessions focused on early detection strategies, prevention techniques, patient support, and holistic approaches to women's health. Through expert-led discussions, workshops, and interactive sessions, the event emphasized that knowledge is a powerful tool

in combating breast cancer. Participants gained valuable understanding of screening methods, risk factors, treatment options, and the importance of timely medical intervention, reinforcing the message that awareness and proactive action can save lives.

Pink Ribbon Day 2025 was more than an awareness campaign—it was a call to empowerment, informed decision-making, and collective responsibility. By hosting this event, GIU not only highlighted its role as an educational institution committed to knowledge dissemination, but also as a catalyst for positive societal change, health advocacy, and community well-being.

The University extends sincere appreciation to all expert speakers, organizers, and participants, whose contributions ensured the event's success and meaningful impact. GIU remains dedicated to continuing initiatives that blend education, health awareness, and social responsibility, nurturing informed, proactive, and compassionate future leaders.

Green Sports Festival 2026: A Grand Celebration of Talent, Teamwork, & Triumph

The Green Sports Festival 2026 at Green International University launched with unmatched enthusiasm, energy, and camaraderie, heralding the start of a week-long celebration dedicated to athletic excellence, student engagement, and holistic development. The festival witnessed active participation from 10 competitive houses, with a total of 660 students competing across 16 thrilling indoor and outdoor games, reflecting GIU's unwavering commitment to nurturing well-rounded individuals and fostering a culture of spirited competition, teamwork, and discipline.

The event commenced with the official inauguration and trophy unveiling ceremony, a moment that filled the campus with pride, anticipation, and a spirit of healthy rivalry. Students immediately showcased exceptional skill, strategic thinking, focus, and determination, fully engaging in games that tested not only their physical abilities but also their resilience, collaboration, and leadership potential. From the first whistle to the opening victories, the campus resonated with electric energy, inspiring cheers, and institutional pride, creating an atmosphere that celebrated both individual and collective achievement.

Beyond the competitions, the festival served as a dynamic platform for nurturing leadership, teamwork, and perseverance, inspiring participants and the wider campus community to embrace challenges, celebrate achievements, and pursue excellence. The enthusiasm, creativity, and dedication displayed by students across every game highlighted the University's vision of promoting holistic education that balances academic rigor with physical, mental, and social development.

The Green Sports Festival 2026 stands as a vivid testament to GIU's commitment to fostering talent, unity, and a culture of excellence, discipline, and camaraderie. The festival not only provided students with the opportunity to showcase athletic prowess, but also strengthened interpersonal skills, confidence, and leadership qualities, leaving a lasting impact on the campus community. With such a spectacular start and unparalleled energy, the festival promises even greater moments of triumph, inspiration, and memorable achievements in the days ahead, reflecting GIU's dedication to producing well-rounded, resilient, and successful future leaders.

1st International Conference on Sustainable Development Goals: Fostering Cross-Sectoral Collaboration

Green International University proudly hosted its 1st International Conference on Sustainable Development Goals (SDGs), titled “A Cross-Sectoral Dialogue to Foster Sustainable Societies”, marking a significant milestone in the University’s commitment to advancing the United Nations 2030 Agenda for Sustainable Development through inclusive, evidence-based, and meaningful collaboration.

The conference brought together a diverse group of stakeholders, including representatives from government departments, regulatory authorities, NGOs, industry leaders, academia, and civil society, to engage in rigorous discussions on social sustainability, environmental stewardship, and institutional resilience. Serving as a dynamic platform for policy dialogue, knowledge exchange, and shared responsibility, the event enabled cross-sectoral engagement that identified integrated solutions and actionable, context-specific strategies to address complex and interconnected sustainability challenges.

Through panel discussions, focused group dialogues, capacity-building workshops, and international webinars, the

conference successfully translated global SDG priorities into practical local and national actions, fostering collaborative implementation pathways among academia, government, industry, and civil society. These engagements resulted in cross-sectoral solutions, policy-relevant recommendations, and clearly defined action plans to drive sustainable change.

Key thematic areas—including climate action, mental health and social well-being, air pollution and the smog-poverty nexus, quality education, and sustainable innovation—were explored with direct input from policymakers, practitioners, researchers, and community partners, ensuring relevance, applicability, and impact. By initiating and leading this conference, Green International University reaffirmed its role as a convener and catalyst for sustained collaboration, strengthening partnerships and driving measurable progress toward sustainable and resilient societies. This milestone highlights GIU’s vision of integrating research, policy, and practice to address global challenges locally, setting the stage for continued leadership in sustainability and innovation.

Advancing International Academic Partnerships at GIU

Green International University had the honor of welcoming Prof. Dr. Nessar Ahmed, Reader in Clinical Biochemistry at Manchester Metropolitan University (UK), for an academic visit aimed at exploring opportunities for international collaboration and knowledge exchange. The visit marked an important step toward strengthening global academic linkages and advancing GIU's commitment to international standards in education and research. The distinguished guest was received by the Department of Medical Sciences and subsequently escorted for an official meeting with Rector Prof. Dr. Mubbsher Munawar Khan. During the meeting, the Rector warmly welcomed Prof. Dr.

Nessar Ahmed and presented an overview of GIU's academic vision, institutional development, and its growing ecosystem focused on skill development, applied learning, and professional excellence. He highlighted the University's strategic commitment to developing academic programs that align with emerging industry demands and global educational benchmarks. Prof. Dr. Nessar Ahmed shared valuable insights drawn from his international academic experience at Manchester Metropolitan University, discussing modern trends in biomedical education, research practices, and innovative teaching methodologies. He appreciated the progressive

direction and academic ambitions of Green International University, recognizing its focus on practical learning and student-centered development. During the dialogue, both sides expressed a strong interest in exploring collaborative opportunities, particularly in joint curriculum development designed to meet international standards and enhance the global competitiveness of academic programs. Prof. Dr. Nessar Ahmed also conveyed his willingness to contribute as an academic partner in future collaborative initiatives, strengthening the bridge between GIU and international academic institutions. Following the meeting, the delegation visited GIU's laboratories, where they reviewed the facilities and practical training environment designed to support hands-on learning and research-oriented education. The visit then continued to

Ali Fatima Hospital, where the delegation met MS Dimple Mustafa, who provided an overview of how the hospital integrates its healthcare services with the University's medical education programs. The delegation observed how clinical training and real-world medical exposure are incorporated into the students' learning experience. The visit concluded with a shared commitment to advancing quality-driven academic collaboration, reflecting a mutual vision to promote global knowledge exchange, innovative education, and research excellence. Such engagements reinforce Green International University's dedication to building international partnerships that enrich learning, strengthen academic standards, and prepare students for global professional environments.

Strengthening International Academic Collaboration at Green International University

Green International University had the privilege of hosting Prof. Dr. Dildar Hussain, Professor and Head of the Luxury Marketing Department / Program Director at Rennes School of Business, France, during a significant academic visit aimed at exploring opportunities for international collaboration and academic exchange.

During his visit, Prof. Dr. Dildar Hussain held an important meeting with the Deputy Chairman Board of Governors, Dr. Muhammad Hamza Amin, where discussions focused on strengthening academic linkages between institutions, promoting international learning opportunities, and exploring avenues for student mobility and collaborative initiatives.

The distinguished guest also met with Rector Prof. Dr. Mubbsher Munawar Khan, where the leadership of Green International University shared the University's vision of academic innovation, skill-based education, and global engagement. The meeting highlighted GIU's commitment to aligning its academic programs with international standards, industry needs, and emerging global trends in business education.

Prof. Dr. Dildar Hussain shared valuable insights from his extensive international academic experience at Rennes School of Business, particularly in the areas of marketing strategy, luxury brand management, and global business education. He appreciated GIU's

forward-looking academic vision and expressed interest in exploring potential collaboration in areas such as student exchange programs, joint academic initiatives, and international exposure opportunities for students. The interaction reflected a shared commitment to enhancing international academic cooperation, strengthening research dialogue, and creating new pathways for global learning experiences. Such engagements are an important step in advancing Green International University's mission to become a globally connected, research-driven, and internationally collaborative institution.

Through partnerships with leading global academics and institutions, Green International University continues to expand its international outreach, enrich academic perspectives, and prepare students to thrive in an increasingly interconnected world.

Digital Logic Design & Artificial Intelligence Annual Project Exhibition 2025: Showcasing Innovation & Excellence

The Digital Logic Design & Artificial Intelligence Annual Project Exhibition 2025 at Green International University was a remarkable showcase of innovation, creativity, and technical excellence, bringing together 135 students presenting 35 cutting-edge projects. The exhibition highlighted the practical skills, ingenuity, and deep understanding of modern engineering and AI concepts demonstrated by our students.

After a thorough evaluation, the top-performing projects were recognized for their exceptional innovation and merit. The first position was awarded to Arbab Khan for the project "Line Detection and Obstacle Avoidance Sensor Car". The second position went to Hassan Ali, M. Ammaz Abid, M. Saqlain Saadi, and Ali Raza for "Intelligent Parking Slot Automation". Due to equal merit, the third position was jointly awarded to two projects: "Gas Leakage System" by Amir Rahman, Saad Ashiq, Shafat Hussain, Abdul Rehman Shahzad, and "Obstacle Detection Alert System" by Saad ur Rehman, Babar, Fahad Hayat, and Hamza Bilal.

The exhibition was further honored by the presence of distinguished Heads of Departments and faculty members from various universities, whose valuable feedback, guidance, and encouragement motivated the students and enhanced the learning experience. This event provided an excellent platform for knowledge sharing, inter-university collaboration, and exposure to real-world problem-solving approaches, bridging the gap between theory and practice.

From intelligent automation systems to sensor-based and AI-driven solutions, the projects reflected the students' ability to translate theoretical knowledge into practical applications. The enthusiasm, teamwork, and dedication displayed throughout the exhibition made it a memorable and highly successful experience.

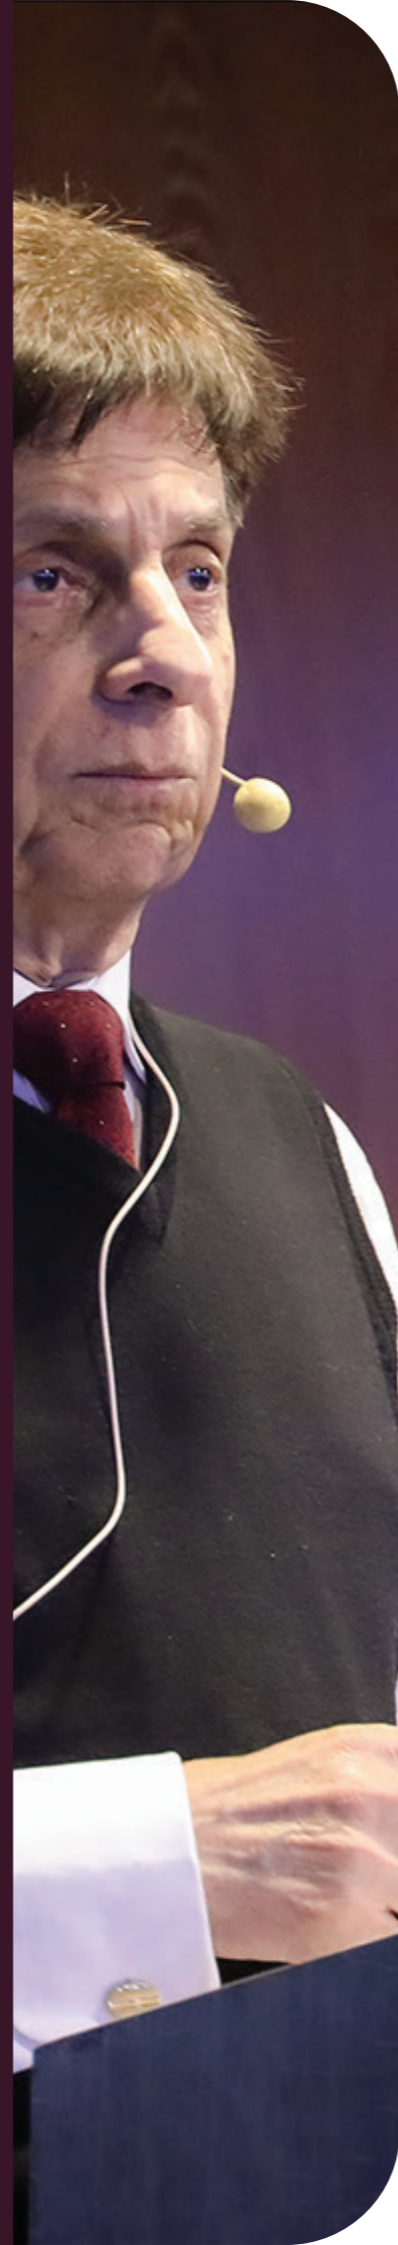

Green International University extends sincere appreciation to all guests, faculty members, organizers, and students, whose efforts ensured that the Digital Logic Design & Artificial Intelligence Annual Project Exhibition 2025 was a resounding success, reinforcing the University's commitment to fostering innovation, technical excellence, and industry-ready skills among its students.

The Journey of Wellbeing

Strengthening Psychological Health & Inclusive Academic Culture at GIU

Green International University successfully hosted a comprehensive faculty training session under the Rector's flagship initiative, "The Journey of Wellbeing," reaffirming its commitment to psychological wellbeing, inclusive education, and the creation of a sustainable and supportive academic environment. Organized in collaboration with Abu Umara Medical & Dental College and Mind Organization, and facilitated by the Serenity Support Center, the initiative reflects GIU's forward-looking approach toward integrating wellbeing into its academic ecosystem.

The session brought together faculty members from across disciplines, providing a platform for reflective dialogue, experiential learning, and professional capacity building. It encouraged educators to examine their roles not only as academic facilitators but also as mentors, guides, and key contributors to students' emotional and psychological development.

Focused on the theme "Teacher-Student Relationships as a Protective Factor for Students' Psychological Health," the session was led by Prof. Dr. Sa'ad B. Malik, President of Mind Organization, who delivered an insightful and engaging discourse on the importance of empathetic teaching practices, trust-building, and emotional intelligence within the classroom. He emphasized that strong teacher-student relationships are foundational to creating resilient learners, capable of navigating academic challenges while maintaining mental wellbeing.

The session highlighted how positive and supportive academic environments directly contribute to global priorities, particularly Sustainable Development Goal 3 (Good Health & Wellbeing) and Sustainable Development Goal 4 (Quality Education). By fostering care, inclusion, and understanding, educators can significantly enhance both learning outcomes and student wellbeing, ensuring a balanced and holistic educational experience.

Through this Rector-driven initiative, GIU continues to strengthen the alignment between academic excellence and human-centered values, promoting a culture where wellbeing, empathy, and mutual respect are integral to institutional growth. The "Journey of Wellbeing" serves as a strategic step toward building a resilient academic community, where faculty and students are empowered to thrive both intellectually and emotionally.

This initiative not only reinforces GIU's commitment to innovative and inclusive education but also positions the University as a progressive institution dedicated to nurturing responsible, emotionally intelligent, and socially aware future leaders.

Green International University proudly held its 1st Convocation Ceremony 2026, a historic milestone celebrating academic excellence, research achievements, and the accomplishments of over 200 graduates. The grand event was graced by the Governor of Punjab, Sardar Saleem Haider Khan, Patron GIU, and warmly welcomed by Patron-in-Chief Madina Foundation, Mian Muhammad Hanif (SI), reflecting the strong institutional support and recognition for GIU's vision.

The ceremony was further honored by the presence of Chairman Board of Governors, Muhammad Haider Amin, and Deputy Chairman Board of Governors, Dr. Muhammad Hamza Amin, whose visionary address added prestige and inspiration to the occasion. Member Board of Governors, Dr. Muhammad Abu Bakar, also joined, lending distinguished presence and encouragement to the graduates. Addressing the gathering, Rector Prof. Dr. Mubbsher Munawar Khan reaffirmed GIU's commitment to excellence in education, research, and holistic student development, emphasizing the University's mission to nurture competent, ethical, and professionally prepared graduates. Over 200 graduates were conferred degrees, including 22 medalists recognized for outstanding academic achievements, highlighting the spirit of dedication, perseverance, and scholarly excellence at GIU. The convocation not only celebrated the graduates' success but also reinforced the University's reputation as a progressive, research-driven institution committed to shaping future leaders.

Congratulations to all graduates on this remarkable milestone, and best wishes for a bright, impactful, and successful future ahead!

A Commitment That Transforms Lives:

Empowering Students Through Financial Support

Green international university continues to demonstrate its unwavering commitment to accessible and inclusive education through impactful financial support initiatives. With a vision rooted in opportunity and empowerment, the university ensures that deserving students are provided with the resources needed to achieve their academic goals.

" Education is not just access it is transformation."

By investing in student potential, GIU is shaping a future driven by knowledge, equity and excellence - where every student is empowered to succeed regardless of financial barriers.
